Company Overview

Euro Biom Ltd is a UK-based pharmaceutical wholesale exporter operating under MHRA Wholesale Dealer Authorisation WDA(H) 59239, working to Good Distribution Practice. We trade exclusively in medicines holding a UK marketing authorisation, supplying hospital procurement teams, ministries of health, NGO and humanitarian buyers, and licensed importers across the GCC, Africa, the Levant, Turkey, the CIS and Asia.

We are built for the cases conventional supply chains decline: shortage lines, hard-to-source products, demanding documentation and time-critical despatch, shipped via London Heathrow, ambient or 2-8°C.

What We Supply

UK-Licensed Medicines

Branded, generic and OTC products holding a UK marketing authorisation, across POM, Pharmacy and GSL categories. Over 4,700 lines indexed across 21 therapeutic areas.

Shortage & Hard-to-Source Supply

Sourcing of UK-licensed lines that are discontinued, allocated or out of stock locally, with batch records retained.

Supply into Named-Patient Routes

Supply of UK-licensed product where the buyer holds a destination-country named-patient import authorisation. The import authorisation is held by the buyer or their local agent.

Comparator & Reference Listed Drugs

Commercially packed UK-licensed branded product, as marketed, for bioequivalence studies, regulatory submissions and clinical trial comparator requirements, supplied only to recipients lawfully able to receive them.

2-8°C Cold Chain

2-8°C temperature-controlled despatch from our contract storage site, with temperature records where the shipment is monitored.

Institutional, NGO & Tender Supply

Structured supply for ministries of health, humanitarian programmes, central medical stores and government tender awards.

Scope of Authorisation

Licensed supply only

Our Wholesale Dealer Authorisation covers the procurement, supply and export of medicinal products that hold a marketing authorisation, in the POM, Pharmacy and GSL categories, including temperature-controlled products.

Euro Biom does not supply unlicensed medicines or specials, vaccines and other immunological products, blood or plasma-derived products, or controlled drugs. Enquiries falling outside our authorisation are declined and, where we can, referred on. We would rather turn work away than operate outside our licence.

Documentation by Market

Import requirements differ by destination. We supply the UK-side documents that accompany each line, as the buyer confirms they require, and confirm at quotation stage which documents each line comes with.

MARKET	REGULATOR	TYPICAL UK-SIDE DOCUMENTATION
Saudi Arabia	SFDA	Certificate of Pharmaceutical Product, batch documentation, free sale certificate, legalised invoice
United Arab Emirates	EDE / DHA	CPP, manufacturer batch documentation where available, attested commercial documents
Qatar / Kuwait / Bahrain / Oman	MOPH / MoH Kuwait / NHRA / MoH Oman	CPP, manufacturer authorisation evidence, batch documentation
Jordan / Iraq / Lebanon / Turkey	JFDA / MoH / TITCK	CPP and manufacturer-supplied GMP evidence where available; legalisation and attestation as arranged by the buyer
Egypt / Morocco / Algeria	EDA / AMMPS / ANPP	CPP, legalised documentation, consular attestation
Nigeria / Ghana / Kenya / South Africa	NAFDAC / FDA / PPB / SAHPRA	CPP and batch documentation where available

Destination import permits, registration, legalisation and named-patient authorisations are held by the buyer or their local agent.

How We Work

1. Enquiry

Send the product, strength, pack size, quantity and destination. We respond the same working day.

2. Sourcing & Quote

We confirm availability against licensed UK supply and quote with lead time and documentation scope.

3. Documentation

We assemble the UK-side pack to match your regulator's confirmed requirements.

4. Despatch

Goods despatched from the GDP-compliant contract storage site, ambient or 2–8°C.

5. Tracking

Air waybill and batch documentation issued on despatch, with tracking passed on where the carrier provides it.

6. Aftercare

Named point of contact for reconciliation and queries.

Why Euro Biom

- **Verifiable licensing.** WDA(H) 59239 is listed on the public MHRA wholesale dealer register and can be checked independently before you trade.
- **Licensed product only.** We supply only products holding a UK marketing authorisation, and retain batch records.
- **Based near Heathrow.** Our office is at Harmondsworth, close to the UK's largest air freight gateway; ambient and 2–8°C despatch.
- **Built for the difficult cases.** Shortage lines, complex documentation and time-critical despatch are the core of the business, not an exception to it.
